Dear Sirs,

Received parcel of Coins on Saturday & briefly acknowledged by post Card. I do not consider the Coins bght. a bad sale a bargain, however I have no doubt you did your best for me and I am satisfied with what you have done. Current Coins however are very heavy in price & I am not much hurt in my sales when they come too dear. The Philip II Crown you send on approb. I consider too dear it is not a Coin that is much sought after & is not in high order. At $2.- however I will take it, and hope you will make me the concession of 25 cents, and in that expectation I have deducted that from your account and enclose $8.00 in settlement please acknowledge receipt. If you are not satisfied I would prefer to return

the coin. I shall be glad to receive
list of the English coins when you
can send it, perhaps you can do
so in reply to the present.

Yours truly
Arthur Dahl

Thanks for list with prices. Certainly
considers the price low for the Colonial
half shilling very high, although not quite
up to your ideas. Queen Anne guineas
probably about current value. I expect
to buy many of these and keeping it
170, shall be merchant accept it.

Dear Sirs,

I duly received yours of the 21st inst. and the ... list of coins you have sent me which I return ... following remarks. I also enclose an equated account ... recently but as you say you have not received a copy of it. Please return.

With regard to the list of English Coins I cannot ... those generally termed Early English or previous to the reign of Henry VII / The Edward VI and Elizabeth Crowns ... even in fine / possible state can be worth $39.40 ... only, in the Clarke sale in London in 1888 where the highest ... reached were paid the highest price for a Edwd. VI ... £2.12.— described very fine, and for that of Eliz. ... £7.2.— money does not exactly tempt me, but the prices ... of the way. All Cromwell money is scarce, ... about buying the price. The only prices I care ... price and No. 72 the Commonwealth ... £85 shilling & sixpence of James II @ $1.25 & ... shilling $1.50. No. 85 Wm & Mary six/ ... but could only pay $2.50 for it if absolutely ... and in mint state. The above subject to ... as mentioned in your letter. These coins ... me if you consider they worth for me but you ... any right & publication & that the condition ... they are worn or damaged I do not care to ...

let me know by return of post how I shall accept
however you had better hold them for me
you treat them on. I leave town for two or
middle of next week, and I doubt whether if
in a registered letter they would arrive in time
them before I leave, registered letters are
delayed
or two at Buffalo and it generally takes
for one to reach me here from New York.
They have to pass thro' the Custom House.
Can ask your agent for my address in Toronto. It is as per
heading of this letter. But there is no necessity for any other
address than Toronto, that always finds.

Thanks for your card with offer of early age
ufflings collection, but do not think it would
be of much use to me. If you have any English
coins to offer privately I should be glad to
have a look, have generally two penny pieces
dated 1797 in mint condition to offer me
at about 25 cents each. - I may possibly
be in Philadelphia in the spring if so will
give you a call

Toronto, 27 March 1892

Dear Sirs,

If you will let me have the six two penny pieces described for $2.50 I will try to send them by parcel post. However what you mean by "no parcel post between Canada here" I cannot understand. There certainly is a parcel post between Canada & Australia. I sent [illegible] and I often get coins and stamps by it. The medals would cost 35 cents by express and about 25 by P. Post including 10 cents registration if necessary but with me if sent by express I have to make a journey to the Custom House which takes an hour of my time against 5 minutes to the post office. I would pay 2.75 including postage. They could be sent by a little cheaper way.

Yours Truly
